## Thank you from Waggle! A look ahead to 2019 ...

As I look back and reflect on 2018, I am proud of all Waggle has accomplished and so grateful for your support of our lifesaving mission. Thanks to your generosity and compassion, **Waggle has raised over \$50,000 and reached 4 million people in just a few short months.**

You helped make this achievement possible. Thank you!

At Waggle our mission is to eliminate economic euthanasia, a heartbreaking circumstance for too many pets. We are determined to end this tragedy by helping sick and injured pets regain their health so they can remain with the families who love them.

Your financial support helped pets like Bear, a five-month-old newly adopted Leonburger who needed immediate abdominal surgery to save his life, and Webster, a six-year-old rescued stray cat with life-threatening diabetes. Both of these precious pets received a second chance and the medical care they needed thanks to supporters like you! You can read more Waggle success stories that your generosity made possible here.

**Waggle is just getting started and we need your help to save even more pets!**

After a short beta trial last spring, Waggle officially launched in October with an emphasis on working with rescues and shelters together with our growing community of veterinary practices (nearly 100 already!). Similar to our work with owned pets, our goal with shelters is to get pets the care they need so they can be adopted into loving homes.

I am excited about the prospects for Waggle and the thousands of animals we will most certainly save in 2019 and beyond. Thank you for your generosity, compassion, and support of second chances and saving lives.

Please help us **end economic euthanasia by making a donation to Waggle or the Waggle Foundation today.**

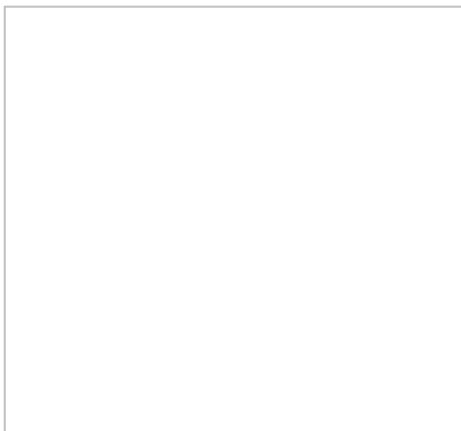

Happy Holidays!

With gratitude,  
Steven Mornelli
